

Take and send orders on the fly with Pocket Pad

Success now sits in the palm of your hand

Sell more

Provide staff preconfigured prompts they can use to upsell to customers.

Take orders and payments on the fly

This is the ultimate queue buster.

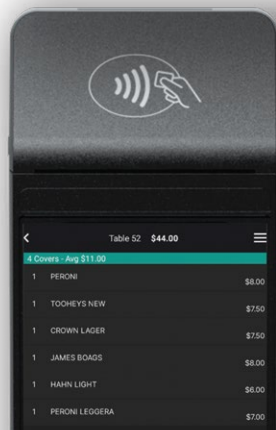

Integrated with **idealpos**

Run promos and happy hour pricing with ease.

Speed up service

Take orders in the dining area, bar, or even car park and send them to the bar and kitchen!

Order sent to bar

Scan or Click for more info

Open and close tables with ease

2 additional modes for fast payment collection:

Pay @ table mode (No ordering)

In this mode, your staff can use the Pocket Pad for the purpose of only collecting payments.

Quick sale mode

Simply sell items and take payments right away without any table functionalities.

It can be used in multiple service areas

- ✓ Dining area
- ✓ Bar
